The data gap this work is built on

Europe PMC full text: "trained immunity" AND (BioImage Archive OR Image Data Resource OR S-BIAD OR idr00)	**0 hits**
BioImage Archive studies matching macrophage/monocyte/neutrophil	**59**
...that are a beta-glucan, BCG, oxLDL, MDP or LPS-tolerance study	**0**
IDR projects and screens enumerated	**147 + 105**
...containing an innate-immune training study	**0**
...containing any innate-immune time-lapse	**0**
Europe PMC: trained immunity x high-content/Cell Painting	**45 hits, all off-topic**
Deposited image sets labelled trained immunity (S-BIAD829, fixed brain IF)	**1**
Public datasets with VIDEO of innate immune cells + activation labels	**0**

Counts quoted from reports/'Trained immunity imaging datasets.md' (this repository); see that report for the queries and accessions.
